MR. SEGESMOND THALEERS, the great planist says:-" I have examined your new Pianoforte, and I cordially approve of its system of construction-its principle, by which great increase of vibratory power is obtained, being ALBERT G. RICHARDSON, Corner of Nassau and very simple and perfectly philosophical. The tone is grand and noble; it has great capacity for sustaining the sound of singing, and its volume of tone or power I have never heard excelled in depth, purity, and sympathetic sweetness."

> WM. HENRY FRY, late Musical Critic of the N. Y. Tribune, says:- 'I have examined your newly invented Piano-Fortes. They merit all the praise given to them by Messrs. Thalberg, Gottschalk Strackosch, Mason, and others. As regards structure, they are original and philosophical; in purity, volume, and continuity of tone; in vocal versimilitude, that crowning excellence which enables the planist to 'sing' on the instrument, your Pianos ever deserve the highest rank. Your invention, in my opinion, is destined to work radical changes in the manufacture of Fianos throughout the world."

From the N. Y. Herald, Sept. 5 .- "Upon a careful examination of Driggs' Piano-Forte, we find the results obtained are a very fine singing tone; great purity and brilliancy throughout the entire instrument, not often found in Pianos constructed upon the old plan."

The N. Y. Times, July 12, says:-"We have now an instrument without an equal. It can sing with a smooth delicacy, perfectly unattainable on any other instrument; an ordinary player obtains, with no exertion, the fullness DUPLEX ELLIPTIC of a Grand Piano-Forte, and they must speedily supersede the old styles."

The Tribune enters upon the year 1867 more prosperous in business than ever before. The expediency of enlarging our pages—thus making The Tribune the largest and the cheapest newspaper in America—was doubted by many. We have found our account in it. The circulation of The Tribune is steadily increasing, and our advertising patrousge has increased so much that it is more difficult to print our news than when we used a smaller sbeet, and this difficulty we can only meet by frequently publishing supplementary pages.

lishing supplementary pages.

The clore of the war has imposed upon The Tribune the discussion of momentus and peculiar proteins. We have met them as best we liar protices. We have met them as best we could, laboring with asserity for Freedom, Social Progress, Political Equality, Impartial Sufrage—All Rights for All. A Republicanism, and we have been called upon to denounce and expose the treacheries of a degraded Administration. It was not without pain, certainly not without much thinking, that we made issue with President Johnson. The people approved our course by returning their radical representatives to power. The elections of 1866—as important to the nation as Lee's surrender—make new duties. Reconstruction is now the make new duties. Reconstruction is now the duty of the country—political reconstruction—reconstruction in finances and tariffs. We are reconstruction in finances and tariffs. We are no longer pressed by war necessities, and we must amend our war experiments. The present condition of the currency is a grevious evil. Trade suffers; our manufacturing interests are in a precarious state. A dollar does not mean a dollar, but its fraction. It may be sixty cents, it may be ten. It is a sentiment, not a fact. When a laborer earns his dollar, he does not know whether he has one loaf of bread or ten. All business is feverish and unsettled. We think this can only be remedied by a wise and interpid policy at Washington—by reducing the interpid policy at Washington-by reducing the currency to the specie basis. Upon this we

The necessity of Protetion to Labor again presses upon us. We regret that on this most important measure the Republican party is di-vided. An honest but mischievious minority vided. An honest but mischievious minority in the West, particularly, are endeavoring to create a policy which can only result in the prostration of American Industry—the degradation of Labor and the aggrandizement of English capitalists. During the many years of our work we have struggled against this interest. We believe Protection more necessary now than ever before, and we shall insist upon the headest and minest legislating for the content of the the broadest and wirest legislation for the Rights of Labor.

Rights of Labor.

In the perplexing question of Reconstruction we see no reason to amend the policy which we have asserted since the close of the war. It then seemed to us that Emancipation of the Black should be followed by Suffrage for the Black. We did not see the wisdom of a policy of promiscuous confiscation and hanging. We had too much blod in war to ask for blood in peace—even to gratify angry vengcance. It peace—even to gratify angry vengeance. It seemed important that the South should concede Suffrage, and that the North should concede Amnesty. Some of our friends disapproved of this; but Congress has followed our advice. of this; but Congress has followed our advice. Amnesty has been approved by Congress—to a greater extent than we claimed in The Tribune. We have held out that the men who starved captives in Rebel dungeons, who murdered surrendered prisoners, who violated the rules of war, and aided the assassination of Mr. Lincoln, should be tried and punished. Congress and the Administration have agreed that no punishment should be inflicted even upon men who are charged with these crimes, and the only measure looking like punishment is the amendment of disfranchisement from holding office, which is merely a centimantal and not a practical penalty. On the other hand, the passage of penalty. On the other hand, the passage of the Civil Rights Bill, the Freedman's Bucau Bill, and the Bill for Suffrage in the District of Bill, and the Bill for Suffrage in the District of Columbia, show that reconstruction will not be consumated without suffrage and protection for the Blacks. The policy of The Tribune has been practically adopted by those who differed with us during its discussion. We never quarrel with friends who are impatignt with us. We do them the justice of believing they go their way to what is right, just as we trust that they will do us the justice of believing we go our way to what is right. We work for the same object, but perhaps in different ways. We have no higher aim than to secure peace to this nation, and to all nations—liberty, progress. nation, and to all nations—liberty, progress, happiness, virtue, and the universal brother hood of man. And for this we shall continue

We have reorganized and strengthened every department of The Tribune. We have corres-pondents in every part of this country and in every country of the world; resident correspondents in every capital and commercial centre of Europe and South America; special corres pondents who follow important movements in all parts of the earth. This establishment costs all parts of the earth. I his establishment costs a great deal of money, and to organize it we have invested many thousands of dollars.—
When we state that there are three hundred people directly or indirectly connected with the editorial department of The Tribune, charged in a greater or less degree, with writing for its columns and giving it news, and that for every columns and giving it news, and that for every item of news we pay money, the vast expense of our publication may be imagined. We intend to enlarge these facilities, and not only to gather news from all parts of the world, but to ask the most gilted men of other countries to write for our columns. With many of them we have already entered into negotiations which will result in giving to the readers of The Tribune a series of essays that both for their intrinsic value and the tame of their illustrious authors, will long be memorable in the history

authors, will long be memorable in the history of journalism. We postpone for the present a more definite announcement.

Friends of Impartial Justice and Progress! we greet you on the bright prospects before us. Friends of The Tribune! we appeal to those the helicare that an increase who believe that an increased circulation of The Tribune would conduce to the political, intellectual, and moral wellbeing of the Re-public, to aid us in effecting such increase.

Ayer's SARSAPARILLA

From Emery Edes, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your SARSAFARILLA, but never yet one bottle which failed of the
desired effect and full satisfaction to those who took
it. As fast as our people try it, they agree there has
been no medicine like it before in our community."

From Rew. Rolt. Stretten, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your Sansapantitla. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your Sansapantilla. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and muchesteemed lady of Demaizeille, Cupe May Co., N. J.

"My daughter has suffered for a year past with a scronhous cruption, which was very troublesome. Nothing afforded any relief until we tried your Sansapantilla, which soon completely cured her."

Gage, Marray of Co., manufacturers of enamelled

"I had for several years a very troublesome
hamor in my face, which grew constantly worse
until it disfigured my features and became an intolerable affliction. I tried almost every thing a man
could of both advice and medicine, but without my
relief whatever, until I took your SAISAPARILLA.
It immediately made my face worse, as you told me
it might for a time; but in a few weeks the new

and I am without any symptoms of the disease that

"Dr. Ayen. I seldom full to remove Eruptions and Scrotulous Sonce by the persevering use of your Sarsapantilla, and I have just now cured an attack of Malignant Eryaipelas with it. No alterative we possess equals the Sarsapantilla you have supplied to the profession as well as to the people."

From J. E. Johnston, Eeq., Waleman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the edicated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your Sarsapartilla. Took two bottles, and some of your Pills. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excite the wonder of all."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harney Sickler, Esy, the able editor of the Tunkhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forchead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing clse we had any hope from, we began giving your Saksaparkilla, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had fluished the second. The child's cyclashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

Syphilis and Mercurial Disease. From Dr. Hiram Stoat, of St. Louis, Missourt.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of Syphilis and for syphilitie disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

The profession are indecided to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"Dr. Ayen. My dear Sir: I have found your Sapsaparilla. In some cases that were too obstinate to yield to other remedy for Syphilis, both of the primary and secondary type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Bruntwick, N. J., had dreasiful ulcers on his legs, caused by the abuse of mercury, or mercurical disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of Ayen's Sausaparilla relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Loucorrhœa, Whites, Female Weakness,

are generally produced by internal Scrophous Ut-ceration, and are very often cured by the alterative effect of this Sansarania. Some cases require, however, in aid of the Sansarania. A the skilful application of local remedies. From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati. "I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhoza, internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Lencorrhea of long standing, by two bottles of your SAESAPARILLA." Rheumatism, Gout, Liver Complaint, Dyspepsis, Heart Disease, Neuralgia, when caused by Scrofula in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS possess so many advantages over the other purgatives in the market, and their superior rirtues are so universally known, that we need not do more than to assure the public their ality is maintained equal to the best it ever has been, and that they may be depended on
